No. 05

## The President's Message

I hope this finds everyone doing well, finally out and about enjoying the long awaited sunshine.

Our tour along with the Davy Crockett club went very well on Saturday May 5th at Brent Terry's Restoration Shop. We met at BJ'S Burgers and Ice Cream Restaurant at noon and enjoyed the burgers, slaw dogs, fries and much more, some even topped off the lunch with a tasty ice cream or sundae. The ladies working the shop that day were so nice and asked that we share our pictures taken there on their face book page, what a very nice complement and I will follow up with that.

Then we headed across the road to Brent's Shop, took a few pictures for our newsletter and proceeded on with the tour. Brent was out of town so his son Blake led the tour. He was very friendly, offering cold water and snacks as we entered and left the shop.

Blake was very informative showing us cars that were in process of full restoration from all over the country, some being modernized per the owners request for daily use. Blake expressed that their shop can handle all types of cars from Vintage up to 1975 cars, etc. Their shop was so clean it's hard to believe without seeing it for yourself. A very talented crew is definitely employed there for sure.

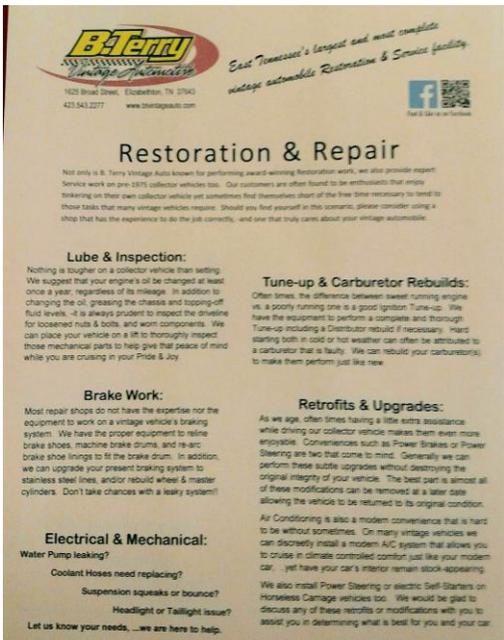

To share a little humor when Randy Still arrived he shared that Brent had been sending him pictures as we were touring, he couldn't be with us yet he was watching and

sending Randy pictures through security camera's partly to make sure his son Blake took care of us.

Later Karen received a message nearing the end that his son Blake had taken a little after him and got a little long winded. The fellowship was great among both clubs and we look forward to future tours together. Those that couldn't make it because of prior engagements we missed you and hope you can next time around. More discussion will follow at our next meeting.

Our next meeting is May 21. 2018 at Rush Street Restaurant in Kingsport, TN dinner at 6 pm & meeting at 7pm.

Don Wood

### Restoration & Repair

Not only is B-Terry Vintage Auto known for performing award-winning restoration work, we also provide expert service work on over 2000 collector vehicles too. Our customers are often found to be enthusiasts that enjoy tinkering on their own collector vehicle yet sometimes find themselves short of the time/ener necessary to tend to those tasks that many vintage vehicles require. Should you find yourself in this scenario, please consider using a shop that has the experience to do the job correctly, and one that truly cares about your vintage automobile.

#### Lube & Inspection:

Nothing is tougher on a collector vehicle than sitting. We suggest that your engine's oil be changed at least once a year, regardless of its mileage. In addition to changing the oil, greasing the chassis and topping-off fluid levels, it is always prudent to inspect the driveline for loosened nuts & bolts, and worn components. We can place your vehicle on a lift to thoroughly inspect those mechanical parts to help give that peace of mind while you are cruising in your pride & joy.

#### Brake Work:

Most repair shops do not have the expertise nor the equipment to work on a vintage vehicle's braking system. We have the proper equipment to resine brake shoes, machine brake drums, and re-arc brake shoe linings to fit the brake drum. In addition, we can upgrade your present braking system to stainless steel lines, and/or rebuild wheel & master cylinders. Don't take chances with a leaky system!

#### Electrical & Mechanical:

Water Pump leaking?  
Coolant Hoses need replacing?  
Suspension squeaks or bounce?  
Headlight or Taillight issue?  
Let us know your needs, ...we are here to help.

#### Tune-up & Carburetor Rebuilds:

Often times, the difference between a sweet running engine vs. a poorly running one is a good Ignition Tune-up. We have the equipment to perform a complete and thorough Tune-up including a Distributor rebuild if necessary. Hard starting both in cold or hot weather can often be attributed to a carburetor that is faulty. We can rebuild your carburetor(s) to make them perform just like new.

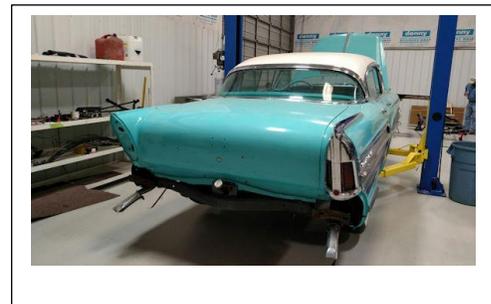

#### Retrofits & Upgrades:

As we age, often times having a little extra assistance while driving our collector vehicle makes them even more enjoyable. Conveniences such as Power Brakes or Power Steering are two that come to mind. Generally we can perform these subtle upgrades without destroying the original integrity of your vehicle. The best part is almost all of these modifications can be removed at a later date allowing the vehicle to be returned to its original condition.

Air Conditioning is also a modern convenience that is hard to be without sometimes. On many vintage vehicles we can discreetly install a modern A/C system that allows you to cruise in climate controlled comfort just like your modern car...yet have your car's interior remain stock-appearing!

We also install Power Steering or electric Self Starters on non-electric Carriage vehicles too. We would be glad to discuss any of these retrofits or modifications with you to assist you in determining what is best for you and your car.

## **Minutes Dan'l Boone Region AACA April 16<sup>th</sup> Meeting**

The April 16<sup>th</sup>, 2018 Meeting of the Dan'l Boone Region AACA was held at Rush Street Grill in Kingsport. President, Don Wood, called the meeting to order at 7:20pm. The Pledge of Allegiance to the Flag followed. Don welcomed the 12 in attendance.

Don then called on Frankie Lambert to give the Treasurer's Report since Wayne was unable to attend. He then called on Randy Still to read the minutes of the March meeting on behalf of Deborah Crawford, Secretary. The minutes were approved as read.

Don then reminded everyone of the joint outing with the Davy Crockett Region on Saturday, May 5<sup>th</sup>. It was suggested that those who wanted to eat together meet at the restaurant across the street from B. Terry Automotive at 12:30. The tour of the restoration facilities was to begin at 2pm.

Members were reminded of the Fiddlers & Fiddleheads Car Show on April 28<sup>th</sup> in Unicoi.

Discussion then turned to the upcoming Fun Fest Car Show on July 14<sup>th</sup> from 10 am until 2 pm. Randy indicated that the property owners had again agreed to allow up to use the area in front of Citizens Bank, Cumberland Marketing, VIP Magazine, and Sleep Owl Brewery. The necessary paperwork and insurance certificates had been filed with the Fun Fest Management. Randy mentioned that a big problem in recent years had been that the Folks chosen to give the special awards did not usually show up and he was left with deciding about 60% of the awards. Sam Quillen suggested that we go to a Top Ten Awards by popularity voting. Randy suggested that we do that and continue the 3 awards who always did show up – The Sullivan County Sheriff's Award, the Kingsport Mayor's Award and the Varsity Trophy Shop Award which would give us the same number of awards as last year. Randy indicated that he had received photos of Bill Hammond's 1959 DeSoto Sedan and Randy Hammond's 1932 Ford Streetrod for the dash plaques and artwork for this year's event. It had been sent to Varsity Trophy to begin work on the dash Plaques.

In the absence of Dave Williams, there was no discussion on the Allandale Meet.

Randy then gave a presentation of 27 photos from the recent AACA National Meet in Charlotte, NC. Randy's 1993 Cadillac Deville had received a 1<sup>st</sup> Junior Award and his 1982 Porsche got a Preservation award.

The meeting was then adjourned.

Submitted by Randy Still on behalf of Deborah Crawford, Secretary

# Car Shows

If you are aware of any shows for this year, please send them to share with other members. [sagelamber@aol.com](mailto:sagelamber@aol.com)

Davy Crockett at Gateway Ford, Greenville, TN on May 21, 2018
