RAMBLINGS FROM RANDY – October 2022

Congratulations to all our region for another successful show at Allandale Mansion. We were blessed with pleasant weather, good cars, and great people. A special thank you to Dave Williams for pulling off another awesome show and smiling through it all.

Our sunshine and shadows chairperson, Barbara Hughes is now in Room 412 at Wexford House. Many members have made visits, sent cards, and called her. Let's keep it up as we all know time drags when we are in that condition. Her cell number is 423.571.0775. Please keep in mind that she has physical therapy and much needed rest time and many not be able to answer at all times.

We do have a Fall Drive this year – to Shady Valley on October 15th. This coincides with their Cranberry Festival. Region member, Bill Anderson has asked us to participate in the Parade and festivities. We will meet in the parking lot of Lowe's on East Stone Drive (across from Giuseppe's) at 7:20 and leave at 7:30 sharp. If you prefer to drive separately, meet us at 9am in Shady Valley. Bring candy to share with kids during the parade. Vintage rides are great and riding modern is ok, but modern vehicles should skip driving in the parade and ride with other members in older cars. This is a new event for our region and come along and check it out!

Also on October 15th is the Southeastern Autorama in downtown Erwin. Prime exhibition parking spots go quickly, so arrive early. The show starts at 8am. Region members, Mike & Melissa McIntosh, work with this event

As I write this, I am preparing to go to the AACA National Meet in Hershey, PA. I am showing the Woody Fleenor 1972 Lincoln Continental competing for a Senior Award. My favorite aspect about the Hershey event is the wide array of vehicles shown at this meet. The meet is heavy on Brass and Classic Era vehicles and has the largest variety of commercial vehicles you can see at an AACA Meet. Through the years I have seen: an antique Packard moving van, restored Greyhound buses, fire trucks and fire chiefs' cars, paddy wagons, phone company repair trucks, ice-cream trucks, dump trucks, and all sorts of military vehicles. It is the largest field of Original (HPOF) vehicles along with a large Driver Participation Class. Our new AACA National Headquarters is adjacent to the show field.

October 18th is our next regular monthly meeting at Giuseppe's Italian Restaurant on East Stone Drive in Kingsport at 6pm. Please RSVP your attendance by October 13th to rstillcars@aol.com or call or text 423.335.0675 . I look forward to seeing you there !

Randy

Dan'l Boone September 13 Meeting Minutes

22 present at the meeting

President Randy Still called the meeting to order. Mr. Bill Anderson introduced his brother Lee who came from Yuma to attend the meeting with him. Randy recognized Fred Counts, who is new to the club and owns a 1965 Chrysler Newport and Matt Caldwell is also new to the club and owns several cars, among them, a 62 Studebaker Daytona Lark and a 62 Studebaker Lark that is 4 doors, a 68 Chevy c-10, a 61 Chevy Corvair and a Jeep T-10.

Randy then told the group about Barbara Hughes who has several health issues and he suggested that if you want to visit her, she likes Pal's Milkshakes. After this Randy offered a prayer.

Wayne Lambert gave the August Treasurer's Report. Total Expenses for the month was \$2,585.91 and the ending balance Was \$9,592.11.

Randy reported that Sharon Williams and Sergio Merluzzi were on vacation. Randy read the minutes from August, and they were approved as written.

Randy thanked Sharon for an excellent job on the minutes and Frankie Lambert added that she was quick getting them to her for the newsletter.

Sam Quillen reported that everyone had an enjoyable time at the picnic, and he thanked everyone for bringing a side dish or dessert.

Randy said the Nottingham Show had nice shirts; the Ladies Auxiliary had plenty of food to offer.

Ms. Bays told about her late husband's love for old cars, and she still has one that she puts in the July Fourth Parade. She thanked Randy for helping keep her car in running condition.

Tomorrow, Wednesday there will be a Car Event from 10-3 at Asbury.

October 15th will be the Cranberry Festival and each car will receive a Voucher for a sandwich (I believe it is barbeque) and a homemade jar of jelly if they attend. Line Up is at Shady Valley Church. It will be a delightful event; you should leave the Kingsport Area about 7:30 AM. If you would like, bring candy to toss out.

Randy reported that he was going to Vanderbilt for a Check UP.

Then the meeting was turned over to Chair for the Allandale Event, Dave Williams.

David said that wearing a shirt is good advertising for the club.

He asked who was going to work at the show with Registration. Judy Archer, Lillian Constant and Betty Wright.

Dave stated that West Ridge needs to be better prepared with food this year.

Awards will be 3:00 or a little bit later. Randy gave directions and Dave gave his phone number just in case anyone needed to reach him. He gave a sheet of directions to be used if going to the show or working at the show. Dave had shirts and caps for sale.

Dave said that John Osborne will present an award at the show, and he will be writing one of his last columns about the Car Show since he will be leaving the local paper for another job.

Respectfully submitted,

Frankie Sage Lambert, in place of Secretary Sharon Williams

FROM FRED COUNTS:

My hunch that this car was a honey proved true; this 1966 Chrysler New Yorker is in very good condition for an all-original car, especially considering it's been in Wisconsin since new.

Matt and I flew up to Chicago this past Friday and took a train to Kenosha, WI on Saturday; from there, we took an Uber to East Troy, where we fully inspected the car, cut a deal, and began the 800-mile trip back home. The car performed admirably, only needing a top-off of coolant and 1/2 qt. of oil the entire trip.

The car is Saddle Bronze Poly, with tan interior. Options include power windows, power seat, tilt/telescoping wheel, AM/FM radio with rear speaker, deep dish wheels, and lower body moldings. Oddly, it does not have A/C.
