### RAMBLINGS FROM RANDY – November 2022

#### WHEELS THROUGH TIME MUSEUM

Maggie Valley, NC

Over Halloween Weekend, I went on a fall colors tour with another car club. It was held in the Maggie Valley area. One stop was the Wheels Through Time Museum. The Museum has been there for 20 years, but I had never been there. The founder of the museum was Dale Walksler, a Harley Davidson Motorcycle Dealer who had collected vintage American Motorcycles. The Museum is quote large and you will get your daily walking in as you tour the many exhibits. As with most collectors, Dale's collection grew to encompass, signage, race cars, production cars, and parts enough to fill every nook and cranny of his large facility. Dale passed recently, but the family is keeping the museum in operation. It is a full history of Harley-Davidson and as well as many other American made motorcycles. There are sidecars, police cycles, military vehicles, off road bikes, racing bikes & more.

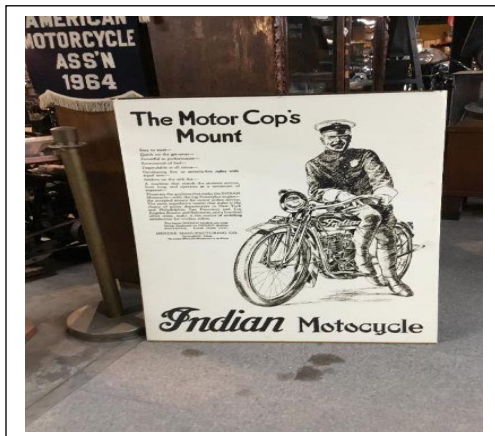

His antique cars are mainly Cadillacs including a 1949 Cadillac formerly owned by Steve McQueen. There are midget racers, cycle cars, and more. A trip to Maggie Valley can be a nice weekend day trip as it is just under a 2 hour drive from Kingsport. I am glad that I finally got to see it and you might enjoy it as well.
