PRESIDENT Randy Still's MESSAGE

September Message:

We are set for one of our busiest activities of our club's year, our annual Allandale Car Show on Sunday, Sept 15th. Be sure to come and assist in whatever way that you are able. The event runs from 9am until 4pm. We have great assistance from the young folks who are collecting the money and directing parking but we all still have tasks to do. One of the most important tasks for members is serving as greeters to those showing vehicles, complimenting their vehicle and thanking them for coming. We want our guest to feel welcome and appreciated. We will gather on the following Monday September 16th at Rush Street for our regular meeting.

In August, I made my annual pilgrimage to the Pebble Beach Concours d'Elegance. On the day of the show I was up at 4am to be there at dawn to watch the magnificent cars enter the show field and stayed until after 6pm when there were about 15 cars left on display.

The following day, I flew to Los Angeles, rented a car and drove to Oxnard, California. The following day, I toured the Mullin Museum of French Cars which was superb. Mr. Mullin's cars are frequent winners at Pebble Beach so I knew that I was in for a treat.

The following day Mr. Mullin's personal assistant met me in Los Angeles and showed me Mr. Mullin's private collection of early brass and nickel era French Cars. The building had been designed to resemble the glass structure in Paris where the early auto salons were held that now serve to accommodate part of the annual Retromobile Celebration of the Automobile in February in Paris each year. The décor and cars made it a memorable experience. That afternoon, I went to the Petersen Automotive Museum where I saw the permanent collection and special exhibits on movie cars, race cars and minimalist cars. A 2 hour tour of The Vault (their collection held in storage in the parking structure) capped off my day until about 8pm.

Then I drove to Sylmar, California to tour The Nethercutt Collection and Nethercutt Museum. The collection include about 300 classic era cars display in marble floored showrooms with crystals chandeliers and vintage music playing as I enjoyed my return visit to the collection.

Disneyland and Disney' California Adventure Park were my activities the following day. The Pixar Cars Exhibit was my favorite as I rode Luigi's Roadster which performs synchronized routines that reminded me of the Ester William choreographed swim routines of years ago. The Cars ride the Monument Hill (hills made in the shape of Cadillac Fins from 1957 through 1962) was also lots of fun. I was particularly pleased that I was physically able to make the trip alone and never had to use a mobility cart. It helped that I was doing the things that I most enjoy.

While I was gone for 8 days, I missed the Annual Picnic and a Sonic Cruise – In. I sincerely thank Dave Williams for supervising club activities in my absence and Sam Quillen for coordinating the picnic itself. It will be great to see you all again at the Allandale Show and at our regular meeting on August 16th.

Randy
